Ageing and Blending

ROSE QUESNEL

Native Canadian Tobacco

We have seen in our previous advertisements that, from the selection and first planting of the seed to the ultimate packing of the cured plant, it is a constant solicitude to the planter.

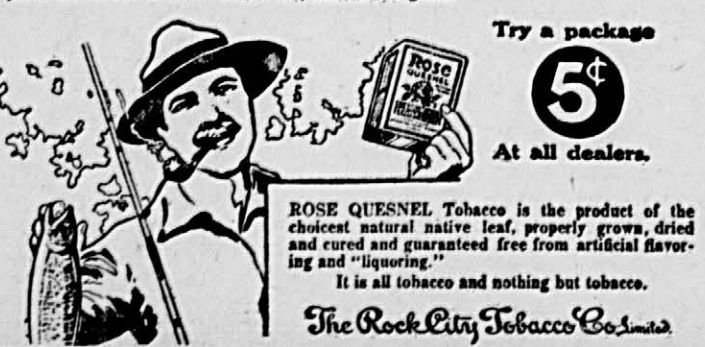

The tobacco, packed in bundles arrives at our warehouses where the stock is inspected, and, if the leaf appears to be well cured and of good quality it is "passed". Then the "hands" are packed upon each other in regular rows in large casks where they are compressed in a very solid mass and the casks stored in our cellars where the tobacco ages for two years. It is the slow, sure way of perfectly maturing tobacco in wooden casks which gives it that mellowed smoothness you taste in every pipeful of Rose Quesnel.

When perfectly aged the Quesnel Tobacco and Rose Tobacco, the two most fragrant and aromatic varieties of tobacco grown in Canada are blended by experts, in scientific proportions, the result of years of research and experiment, and, it is then ready to be cut and packed for the trade.

Rose Quesnel Smoking Tobacco

MILD AND NATURAL

is an ideal blend of native pipe tobacco. You cannot get greater tobacco satisfaction than ROSE QUESNEL will give you; it is free from sting or bite, does not dry or parch the mouth and it is cool, sweet, mild and fragrant.

ROSE QUESNEL Tobacco is the product of the choicest, natural native leaf, properly grown, dried and cured and guaranteed free from artificial flavoring and "liquoring".
It is all tobacco and nothing but tobacco.
The Rock City Tobacco Co. Limited

RAILWAY MEN VISIT GOV'T LABORATORIES

W. B. Campbell, Sci. '10, Assistant Superintendent, Escorts Party.

FOREST PRODUCTS STUDIED.

All Canadian Woods Examined and Experimented With for Strength and Preservation.

About fourteen of the members of the Railway and Mechanical Club made the trip to the Government Forest Products Laboratories, Saturday. These laboratories are situated on University Street, and, while not a part of McGill itself, are so closely connected as to be almost considered as such. Mr. W. B. Campbell, Sci. '10, and the assistant superintendent of the Laboratories, showed the men over the plant, and explained its many interesting details to a very appreciative crowd.

Mr. Campbell first gave a short talk in the library, on the purposes for which the laboratories had been constructed and the scope of the work to be carried out by them. The primary notion was to study all kinds of woods, as to their physical properties, their uses and conservation. There are innumerable uses to which wood is being put, so many, in fact, that only a small part of the subject has been dealt with here up to the present time.

A large amount of work on the physical properties of woods is carried on. The structure of various of the more important Canadian trees is studied very minutely. For this purpose, and in order to illustrate their publications, very thin cuts are made from specially prepared samples, and these cuts are then photographed by a special micrograph set up just for that purpose. The sections are softened for several weeks before cutting, in order that the blade will not cause the grain to split. A special apparatus, in which a very hard razor steel blade is placed, is used to do the slicing. In this, sections as thin as from ten to fifteen thousandths of a millimeter can be cut. There are only three of these in North America. After explaining the processes above, the party were shown several views of sections cut from soft and hard woods, showing the cellular structure and the difference that exists between the structure of hard and soft woods. Some photographs of isolated fibres from a sample of Douglas fir were also shown, the principal interest in these being the difference in size of the spring and summer growths.

In the chemical laboratories, much work is done as to the chemical composition of wood, which is very complicated. The particular work now being done is an effort to discover a way to get pine oil from Canadian woods to take the place of the shortage in the supply from the United States.

The wood preservatives were next brought to the attention of the party, and the apparatus for the treatment of railway ties with creosote was explained fully. In this laboratory, many of the types of wood that are not ordinarily suitable for retaining creosote are being experimented with in an effort to obtain some conditions which will enable them to be more successfully treated. In connection with wood conservation, an exhaustive study is made of the various fungi that attack woods. These fungi are of several kinds, all of which act differently and for different reasons. They are isolated from one another, and wood is inoculated with a pure culture of a single variety, so that it may be studied separately. In order to facilitate the growth of this fungus on the samples, a room is fitted up especially for the purpose, kept at a high temperature, and a high humidity. Here, the fungus develops with great rapidity and some extreme growths are produced.

The laboratories are also the possessors of the largest experimental paper mill in the world. The whole process of making paper from the beating up of the pulp to the rolling of the finished product is carried on in an experimental way in the plant. A large room in which an exhibit of some of the finer woods of British Columbia was arranged, attracted considerable comment, and some splendid samples of finished wood work were to be seen. The party broke up after nearly two very interesting hours.

BATTALION PARADE SATURDAY.
Saturday afternoon the McGill C. O. T. C. Battalion fell in on the campus, and after getting rifles, marched down University St., and halted in front of the High School for a few minutes. Then they paraded down University St. and Beaver Hall Hill and along St. James St. to the Champ de Mars.

On arrival the men were given a short rest, and were then put through the routine of company drill. "A" Company were taken over by a subaltern from "Kitchener's Own," who, it is said, was trying to qualify for his commission. About 4.15 the Battalion fell in mass, and then drilled in column of companies, and in column of platoons.

The men paraded home by the same route, and were dismissed at the rear of the Arts' Building in a fairly tired condition.

WHAT'S ON

TO-DAY.

4.00 p.m.—R. V. C. Tea-room.
6.00 p.m.—Meeting of Students' Council.
7.15 p.m.—Mandolin Club Practice.
Basketball Final, R. V. C.

COMING.

Dec. 5th—Water Polo, M. A. A. A. vs. M. S. C.
Dec. 6th—8.00 p.m.—Electrical Club
Dec. 7th—Conservatorium Orchestra Concert at R. V. C.
Dec. 11th—Students' Council Elections.
Dec. 14th—Lecture at McGill Conservatorium.
Dec. 15th—Union Informal Dance.

McGILL GRADUATES GET CABINET RANK

Dr. J. H. King and Dr. J. D. MacLean, Members of Brewster Administration.

Two McGill men, both graduates of the Faculty of Medicine, have been selected by Premier Brewster, of British Columbia, to take office in the Cabinet which he has just formed. They are Dr. J. H. King, Med. '95, and Dr. John D. MacLean, Med. '95. Dr. King becomes Minister of Public Works, and Dr. MacLean Provincial Secretary and Minister of Education.

Hon. Dr. King is a New Brunswick by birth, a son of Hon. George G. King, Senator. He was educated at the schools at Chipman, N.B., at the Baptist Academy at St. Mary's, N.B., and at McGill. Since 1903 Dr. King has sat in the British Columbia Legislature for Cranbrook, in which place he has been engaged in the practice of his profession. Previous to the recent general election in the Pacific Province, he was chief whip of the Liberal party, and it was recognized that he would attain Cabinet rank in the event of a Liberal victory. Hon. Dr. King has been vice-president of the Graduates' Society of McGill, and has taken an interest in his Alma Mater in various other ways. He attended the International Congress of Medicine and Surgery at Budapest in 1909, and on this occasion was presented at the Austrian Court.

Hon. Dr. MacLean's home is in Culoden, P.E.I., but since graduation he has been practising at Greenwood, B.C.

LONELY SEARCH FOR SON AMONG DEAD

A Story of a Search for the Body of Lieut. H. H. Scott, Law '14.

Roland Hill cables to the Montreal Star the story of the search for the body of Lieut. H. H. Scott, Law '14, which was conducted by his father, Major Rev. F. G. Scott, past student, and now chief chaplain of the First Canadian Division.

"Canadian padres have won a place for themselves on the Somme. Two have already been decorated, and several others have been recommended. Field Ambulance officers, with whom I have spoken lately, pay a great tribute to these men of all denominations for the valuable help given in attending the wounded in the rush that inevitably follows an attack.

"The most remarkable story of devotion yet is that which a wounded officer tells me of Canon Scott, of Quebec, who returned to London today.

"One of his sons was the first officer killed in leading in an attack on Regina trench. Waves of Canadians swept over where he fell. The fortune of war caused us to retire, and in the meantime young Scott's body was buried with others.
"Later on the Canadians captured Regina trench again, this time to hold it. Canon Scott's duties took him into this front line, and night after night, assisted by his faithful batman—he refused the help of officers, who were overwhelmed with their own work—under shell fire, he dug among hastily made graves, searching for his son's remains.
"Finally he found young Scott, and with fatherly tenderness carried him back to a quiet resting-place behind the lines. There, with his own hands, he erected a cross and offered up a prayer to the God of battles—a brave father and brave son united again for a brief moment."

GRAD. RECEIVES PROMOTION.

F. E. Gardner, Sci. '14, has been appointed head of the Chemistry and Metallurgical department of the Dominion Bridge Company, in succession to T. H. West, now engaged in post-graduate study at the University, and who is going overseas as second in command of the Second Reinforcing Company of the 5th Royal Highlanders of Canada. Mr. Gardner has been employed since graduation in the Chemistry and Metallurgical department of the Dominion Bridge Company. Mr. West was a demonstrator in Physics at McGill in 1913-14, and was demonstrator in Chemistry in 1914-15.

MANY MCGILL MEN NOW ON HONOR ROLL

131 Have Already Made the Supreme Sacrifice.

LATEST STATISTICS SHOW

Many of McGill's Most Brilliant Students are Numbered Among the Heroes.

According to statistics prepared for McGill Daily, the number of McGill men known to have sacrificed their lives to date in the war is 131. The list follows:—

Armstrong, George, past student, Company Sergeant-Major, 1st Canadian Division, killed in action, June 3, 1916.

Armstrong, W. C., Arts '16, private, No. 9 Field Ambulance, killed in action, Sept. 30, 1916.

Baily, H. R. D., Agri. '16, corporal, 13th Battalion, C.E.F., killed in action.

Baker, George H., Law '00, Lieutenant-Colonel, 5th Canadian Mounted Rifles, killed in action, June, 1916.

Baker, D. S., Sci. '13, 2nd Lieut. Royal Engineers, died of wounds, July 23, 1916.

Barrett, J. E. R., Arts '16, sergeant, 5th Canadian Mounted Rifles, killed in action, June, 1916.

Beard, W. P., P. P., Sci. '17, gunner, 3rd Battery, C.F.A., died of wounds.

Beaudry, A. P., past student, Lieutenant, 22nd Battalion, killed in action, September, 1916.

Bennett, A., past student, 2nd Lieutenant, Leicestershire Regiment, killed in action, July 4, 1916.

Bertram, J. K., Med. '16, captain, Canadian Mounted Rifles, killed in action, Sept. 22, 1916.

Bidolph, R. H., H. S., Sci. '12, private, P. C. L. I., killed in action, October, 1916.

Blackader, G. H., Arch. '06, captain, 42nd Battalion, died of wounds, August, 1916.

Bolton, L. E. S., past student, pioneer, Canadian Pioneers, killed in action, June 12, 1916.

Bone, John T., Sci. '14, Lieutenant, Royal Flying Corps, drowned while on a perilous military mission, October 18, 1915.

Bostock, R. H., Sci. '15, Lieutenant, Canadian Mounted Rifles, killed in action, July 26, 1916.

Bowie, W. E. P., past student, gunner, Canadian Artillery, killed in action, June 2, 1916.

Boyd, T. B., Sci. '12, private, P. P. C. L. I., killed in action, June, 1916.

Brotherhood, W. C., Sci. '12, Lieutenant, 14th Battalion, C.E.F., killed in action.

Browne, H. D., past student, Lieutenant, 60th Battalion, killed in action, July 10, 1916.

Buchanan, F. P., Sci. '00, major, 12th Battalion, killed in action, June 28, 1916.

Cameron, C. M., Sci. '15, 2nd Lieutenant, Royal Engineers, killed in action, June 12, 1916.

Campbell, Alex., Sci. '97, First Canadian Division, died while training.

Campbell, P., Arts '97, Med. '01, Lieutenant-colonel, Canadian Army Medical Corps, killed in action, September, 1915.

Carey, W. Vincent, Arts '09, Lieutenant, 19th Battalion, killed in action, September, 1916.

Cash, G. S., Sci. '12, lance-corporal, 22nd Manchester Regiment, killed in action, July 4, 1916.

Christie, H. R. M., Sci. '08, 2nd Lieutenant, 4th Scottish Rifles, killed in action, July 17, 1916.

Clark, Paul S., Arts '15, sergeant, Canadian Mounted Rifles, killed in action, June, 1916.

Cooper, Corin H. B., Sci. '12, Lieutenant, Royal Engineers, died of wounds.

Cowen, R. S., Sci. '06, 2nd Lieutenant, Border Regiment, died at the Dardanelles of drinking water poisoned by the Turks.

Crosley, Cecil, past student, 2nd Lieutenant, 5th Royal Irish Fusiliers, killed in action, at the Dardanelles.

Davis, G. H., Sci. '07, corporal, 5th Infantry Brigade, C. E. F., died of wounds, April 30, 1916.

Daw, H. B., Arts '09, Lieutenant, 58th Battalion.

Delepine, H. G. S., past student, 2nd Lieutenant, B.E.F., killed in action at the Dardanelles.

Desbrisay, E. M., Sci. '16, sapper, Canadian Engineers (attached Royal Flying Corps), died.

Dillon, W. P., Med. '04, major, No. 2 Canadian General Hospital, accidentally killed in France.

Drummond, G. M., Arts '09, captain, 13th Battalion, C.E.F., killed in action.

Dugan, H. S., Sci. '12, Lieutenant, Royal Engineers, died of wounds.

Duval, J. L., Med. '98, major, No. 1 Field Ambulance, C. E. F., died of wounds.

Ekers, Archer, past student, Lieutenant, 87th Battalion, killed in action.

Elderkin, V. C., Sci. '12, private, 14th Battalion, C.E.F., killed in action.

Evans, A. J. L., Sci. '11, Lieutenant, 3rd Battalion, C. E. F., attached to 1st Brigade, Mining Section, died of wounds.

Fair, R. M., Sci. '15, captain, 24th Battalion, killed in action.

Field, C. V. C., Sci. '17, Lieutenant, 4th Battalion, C.E.F., attached to the Royal Flying Corps, unofficially reported killed.

Fisher, Fred, Sci. '17, lance-corp., 12th Battalion, C.E.F., killed in action.

Daw, H. B., Arts '09, Lieutenant, 58th Battalion.

Delepine, H. G. S., past student, 2nd Lieutenant, B.E.F., killed in action at the Dardanelles.

Desbrisay, E. M., Sci. '16, sapper, Canadian Engineers (attached Royal Flying Corps), died.

Dillon, W. P., Med. '04, major, No. 2 Canadian General Hospital, accidentally killed in France.

Drummond, G. M., Arts '09, captain, 13th Battalion, C.E.F., killed in action.

Dugan, H. S., Sci. '12, Lieutenant, Royal Engineers, died of wounds.

Duval, J. L., Med. '98, major, No. 1 Field Ambulance, C. E. F., died of wounds.

Ekers, Archer, past student, Lieutenant, 87th Battalion, killed in action.

Elderkin, V. C., Sci. '12, private, 14th Battalion, C.E.F., killed in action.

Evans, A. J. L., Sci. '11, Lieutenant, 3rd Battalion, C. E. F., attached to 1st Brigade, Mining Section, died of wounds.

Fair, R. M., Sci. '15, captain, 24th Battalion, killed in action.

Field, C. V. C., Sci. '17, Lieutenant, 4th Battalion, C.E.F., attached to the Royal Flying Corps, unofficially reported killed.

Fisher, Fred, Sci. '17, lance-corp., 12th Battalion, C.E.F., killed in action.

Daw, H. B., Arts '09, Lieutenant, 58th Battalion.

Delepine, H. G. S., past student, 2nd Lieutenant, B.E.F., killed in action at the Dardanelles.

Desbrisay, E. M., Sci. '16, sapper, Canadian Engineers (attached Royal Flying Corps), died.

Dillon, W. P., Med. '04, major, No. 2 Canadian General Hospital, accidentally killed in France.

Drummond, G. M., Arts '09, captain, 13th Battalion, C.E.F., killed in action.

Dugan, H. S., Sci. '12, Lieutenant, Royal Engineers, died of wounds.

Duval, J. L., Med. '98, major, No. 1 Field Ambulance, C. E. F., died of wounds.

Ekers, Archer, past student, Lieutenant, 87th Battalion, killed in action.

Elderkin, V. C., Sci. '12, private, 14th Battalion, C.E.F., killed in action.

Evans, A. J. L., Sci. '11, Lieutenant, 3rd Battalion, C. E. F., attached to 1st Brigade, Mining Section, died of wounds.

Fair, R. M., Sci. '15, captain, 24th Battalion, killed in action.

Field, C. V. C., Sci. '17, Lieutenant, 4th Battalion, C.E.F., attached to the Royal Flying Corps, unofficially reported killed.

Fisher, Fred, Sci. '17, lance-corp., 12th Battalion, C.E.F., killed in action.

Daw, H. B., Arts '09, Lieutenant, 58th Battalion.

Delepine, H. G. S., past student, 2nd Lieutenant, B.E.F., killed in action at the Dardanelles.

Desbrisay, E. M., Sci. '16, sapper, Canadian Engineers (attached Royal Flying Corps), died.

Dillon, W. P., Med. '04, major, No. 2 Canadian General Hospital, accidentally killed in France.

Drummond, G. M., Arts '09, captain, 13th Battalion, C.E.F., killed in action.

Dugan, H. S., Sci. '12, Lieutenant, Royal Engineers, died of wounds.

Duval, J. L., Med. '98, major, No. 1 Field Ambulance, C. E. F., died of wounds.

Ekers, Archer, past student, Lieutenant, 87th Battalion, killed in action.

Elderkin, V. C., Sci. '12, private, 14th Battalion, C.E.F., killed in action.

Evans, A. J. L., Sci. '11, Lieutenant, 3rd Battalion, C. E. F., attached to 1st Brigade, Mining Section, died of wounds.

Fair, R. M., Sci. '15, captain, 24th Battalion, killed in action.

Field, C. V. C., Sci. '17, Lieutenant, 4th Battalion, C.E.F., attached to the Royal Flying Corps, unofficially reported killed.

Fisher, Fred, Sci. '17, lance-corp., 12th Battalion, C.E.F., killed in action.

Daw, H. B., Arts '09, Lieutenant, 58th Battalion.

Delepine, H. G. S., past student, 2nd Lieutenant, B.E.F., killed in action at the Dardanelles.

Desbrisay, E. M., Sci. '16, sapper, Canadian Engineers (attached Royal Flying Corps), died.

Dillon, W. P., Med. '04, major, No. 2 Canadian General Hospital, accidentally killed in France.

Drummond, G. M., Arts '09, captain, 13th Battalion, C.E.F., killed in action.

Dugan, H. S., Sci. '12, Lieutenant, Royal Engineers, died of wounds.

Duval, J. L., Med. '98, major, No. 1 Field Ambulance, C. E. F., died of wounds.

Ekers, Archer, past student, Lieutenant, 87th Battalion, killed in action.

Elderkin, V. C., Sci. '12, private, 14th Battalion, C.E.F., killed in action.

Evans, A. J. L., Sci. '11, Lieutenant, 3rd Battalion, C. E. F., attached to 1st Brigade, Mining Section, died of wounds.

Fair, R. M., Sci. '15, captain, 24th Battalion, killed in action.

Field, C. V. C., Sci. '17, Lieutenant, 4th Battalion, C.E.F., attached to the Royal Flying Corps, unofficially reported killed.

Fisher, Fred, Sci. '17, lance-corp., 12th Battalion, C.E.F., killed in action.

Daw, H. B., Arts '09, Lieutenant, 58th Battalion.

Delepine, H. G. S., past student, 2nd Lieutenant, B.E.F., killed in action at the Dardanelles.

Desbrisay, E. M., Sci. '16, sapper, Canadian Engineers (attached Royal Flying Corps), died.

Dillon, W. P., Med. '04, major, No. 2 Canadian General Hospital, accidentally killed in France.

Drummond, G. M., Arts '09, captain, 13th Battalion, C.E.F., killed in action.

Dugan, H. S., Sci. '12, Lieutenant, Royal Engineers, died of wounds.

Duval, J. L., Med. '98, major, No. 1 Field Ambulance, C. E. F., died of wounds.

Ekers, Archer, past student, Lieutenant, 87th Battalion, killed in action.

Elderkin, V. C., Sci. '12, private, 14th Battalion, C.E.F., killed in action.

Evans, A. J. L., Sci. '11, Lieutenant, 3rd Battalion, C. E. F., attached to 1st Brigade, Mining Section, died of wounds.

Fair, R. M., Sci. '15, captain, 24th Battalion, killed in action.

Field, C. V. C., Sci. '17, Lieutenant, 4th Battalion, C.E.F., attached to the Royal Flying Corps, unofficially reported killed.

Fisher, Fred, Sci. '17, lance-corp., 12th Battalion, C.E.F., killed in action.

Daw, H. B., Arts '09, Lieutenant, 58th Battalion.

Delepine, H. G. S., past student, 2nd Lieutenant, B.E.F., killed in action at the Dardanelles.

Desbrisay, E. M., Sci. '16, sapper, Canadian Engineers (attached Royal Flying Corps), died.

Dillon, W. P., Med. '04, major, No. 2 Canadian General Hospital, accidentally killed in France.

Drummond, G. M., Arts '09, captain, 13th Battalion, C.E.F., killed in action.

Dugan, H. S., Sci. '12, Lieutenant, Royal Engineers, died of wounds.

Duval, J. L., Med. '98, major, No. 1 Field Ambulance, C. E. F., died of wounds.

Ekers, Archer, past student, Lieutenant, 87th Battalion, killed in action.

Elderkin, V. C., Sci. '12, private, 14th Battalion, C.E.F., killed in action.

Evans, A. J. L., Sci. '11, Lieutenant, 3rd Battalion, C. E. F., attached to 1st Brigade, Mining Section, died of wounds.

AN HOUR IN THE LIBRARY.

We spent an hour in the Library the other day with the intention of getting in a little study. Had we been blind and deaf we might have accomplished something, but as it was the only impression left with us was that the Library seemed an excellent place to take a course in conversation, and to learn to do almost anything but study. We may be hard to please, but there can be no denial of the statement that at least one half of those who use the big reading room, use it as a conversational centre.

The first table from those which are assigned for the use of the R. V. C. students is much in demand amongst the male members of the University. We presume that there is a reason, but there is no absolute necessity to make a public demonstration of the fact. While we were in the building the conversation which was carried on at this table was plainly audible for quite a distance away, the young ladies themselves were not much behind in this respect, either. One of the Library attendants was forced to come down and request that the task be carried on in a lower tone, or that those who were creating the disturbance leave. We would have you remember that the Freshies are not the only offenders, although they comprise the greater portion of them. One heavy-footed Arts Senior was practicing for a marathon we presume, in the manner in which he kept plodding about from one book shelf to another, always managing to pass one particular table twice for every once that he passed the others. He kept this up for the greater portion of the hour.

Another favourite indoor sport which we remarked was that indulged in by certain individuals whom we would have credited with enough brains to use more "scientific" means of attaining the same object. These men make a practice of tramping as heavily as they possibly can when walking across the overhead passage at the West end of the reading room. We wondered for a time just what the reason was, but soon noticed that every time this occurred the majority of the occupants of the Donaldas' tables would turn their eyes in the direction of the sound. It doesn't cost much, and it is very effective. The only thing needed to complete the picture would be a placard posted up beside this balcony with the admonition, "Don't feed or annoy the animals" inscribed thereon.

McGill has one of the very best libraries in the Dominion, and it seems a shame that the students cannot realize it is meant as a place for study and not as a gossip circle. If you must "fuss," then bring her to the tea room, or the theatre, or visit her at her own home. If you don't want to study in the Library, then keep away from it, and let other people, who do wish to study, do so. The building was meant for the use of the students, but not as a hospital for the victims of Cupid's arrows. Every student knows that when in the building he is supposed to keep silence, and if he is not prepared to do this then he should not enter nor be allowed to enter. We hope that we will not have to call attention to this matter again.

EDITORIAL NOTE.

McGill's Polo representatives will be playing the team of the 24th next Wednesday, and in view of the fact we wish to correct an impression which was created by an account of the last game between these two teams, which appeared in the Daily at that time. A reporter's inaccuracy and a typographical error combined to make it appear that the team of the 24th were not good sportsmen. This is altogether erroneous. The 24th had, it is true, five men in the water, but only until the game had been started, when one of them was withdrawn. This withdrawal was not obligatory, but was done to make the teams equal, the soldiers not wishing to take an unfair advantage over their opponents. The five men were kept in the water till play was called, because the rules of the game enact that in case during the game it is necessary to drop a man, on account of cramp or other cause, he can only be replaced by a man who has been in the water at the beginning of the game. The 24th were altogether within their rights in acting the way that they did, and more than that, extended a courtesy to the McGill team by not playing all the men that they were entitled to play. The Daily regrets that such a garbled account of the game should have crept into its columns, and wished to correct in as far as possible, the impression which was created.

HONOR CONFERRED ON TWO OF STAFF.

Two members of the teaching staff of the University—Dr. Frank D. Adams, Dean of the Faculty of Applied Science, and Dr. R. F. Rutan, Professor of Organic and Biological Chemistry—have been appointed members of an honorary advisory council on industrial and scientific research which has been appointed by the Dominion Government to assist the Canadian people in the readjustment of conditions which will follow the declaration of peace.

The council is to consult with responsible bodies and persons in scientific and industrial research with a view to united effort and mutual co-operation, to co-ordinate so far as possible the work carried on, to select the most practical and pressing problems indicated by industrial necessities and present them to research bodies for the earliest solution and to report to the Minister of Trade and Commerce.

THE BAND ON ROUTE MARCH.

The McGill Band accompanied the Battalion on route march for the first time last week. Both on Thursday evening and Saturday afternoon the band headed the parade, and whatever improvement is marked in the marching of the men is due in great part to the excellent work of the University band. The members have been practicing hard, and much credit is due to them for the efficient manner in which they perform their important duty.

MED. '18, ATTENTION.

The next Faculty to have their photographs taken for the Annual is Medicine '18. This class starts in to-day, and must have all sittings done by Saturday, Dec. 9th. This group also includes Dentistry '18. All those men in Science and Arts who have so far not had a sitting, may only do so now with the consent of the photographer, and in order to secure this, they must go down at once. Otherwise their picture will not appear in the Annual. It should be noted that if a student is not satisfied with the proofs of the first sitting, a second sitting may be had without additional cost. No appointment is necessary with the photographer, Mr. Gordon, as he will take the picture at any time, but students are advised to go in daylight, if possible, as a better picture will be obtained.

R. V. C. NOTES. (Continued from Page 4.)

That everyone be in the gymnasium in good time. The line-up is as follows: Senior team: Baskets—F. Kilgour, J. Klein; Centre, M. Speir; Guards, D. Hicks, W. Wyatt; Wings, E. Jackson, M. Newnham. Soph. team: Baskets—E. Abbott, L. Macdonald; Centre, G. Craig; Guards, R. Rogers, F. Grindley; Wings, F. MacLean, R. Salomon.

PHYRNE AND FRANKENSTEIN.

Dear Phyrne—Since you request me to write you again, I am doing so. It is true that we can discuss, but first let me answer your former letter.

The charge of ignorance is unjust, for I've been talking of religion, not of economics; and religion is one of the things I have thought a great deal about. Perhaps you'd like to hear some of my notions on the subject. What do you think of the following passage from an unpublished book of mine?

"Beauty is ever sad and Truth is ever serene, and smiling; and Good, child of Beauty and of Truth, resembles both her parents, her sorrow being mixed with joy and her joy being something of sorrow it is."

Doesn't that sound impressive? This is what I mean. Man can have peace only by forgetting himself, by loving something unselfishly. He can love one of three things—beauty, truth, or good. The love of the first is called Art, of the second Science, and of the third Religion. The last is compounded of the other two. For this reason the men in whom a strong intellect is joined to an artistic nature—the St. Augustines, the Pascals, the Tolstoys—are irresistibly drawn towards religion. Art does not satisfy them; they love beauty too well. Science does not satisfy them; they love truth too well. Religion, alone, that highly complex thing, can bring them peace and make them comparatively happy.

What is religion? It is truth seen through a poetic temperament. Every religion was once rational; to its founder it was the newest, the most consistent philosophy of life. But truth is progressive; and therefore no religion can possibly be eternal. In our day many "enlightened" people have not only lost their religion, but have forgotten what religion is. And so doctors of divinity and other learned men write ponderously about the "opposition between science and religion"—as if one must be ignorant in order to live a religious life!

Let me tell you a fable. Once upon a time a traveller visited an African king, and gave him a photograph. The king was so pleased that he offered the stranger his fabled wife as a gift. The stranger declined as politely as he could and went his way and never returned. Meanwhile the king and his court never tired of listening to the wonderful talking instrument. There was something, however, that the king did not like, and that was the scratching of the needle. And as the records began to wear out the scratching grew louder, and the king liked it less and less. So one day he called the wise men of the land together and addressed them thus:—"O wise and revered sirs, though I like this magic, the kind stranger gave me, yet there is one thing which troubles me sorely. Why this harsh, grinding noise? Is it necessary?" Now when the wise men had heard these words, they said the matter was too grave to admit of an immediate reply. So they pondered upon it for a very long time, and finally came to this decision: That the noise of the needle was not only necessary, but was in fact the chief part of the performance.

It was the essence of art. And the king said: "Why did I not think of that myself?" And the opinion of the wise men was accepted throughout the land. Just so with religion. Our wise men would have us believe that what accompanies religion—the rites, myths, superstitions—are religion itself. I will bring my lecture to an end right here. If you have read as far as this without falling asleep, you are an exceptional person.

What a pity that we don't discuss these questions in class! Have you noticed that most of the professors systematically avoid them? Ignorance and superstition everywhere!—everywhere!—and those who could speak are silent.

Tell me something of yourself, — your likes and dislikes.

FRANKENSTEIN.

P.S.—Hope you get all the first places in the Christmas exams. As for me, I always begin to feel blue about this time of the session, the truth being that I am a mighty poor student, who wastes his time writing nonsense-stories when he ought to be studying Virgil and Horace.

A FRESHETTE'S LETTERS TO A FRIEND.

Carolina, Nov. 30, 1916.
Dear Rosaline,—As you always used to say, "Aren't coincidences strange?" Well, Sir Herbert Tree's daughter, Iris, has been down here for almost a month. She is a lovely girl, and is very clever. I told her about you and Mary. She laughed and said, "You know, father would enjoy that, because he doesn't like formalities." Enclosed you will find a letter of introduction to Miss Mande, who, I think, is playing in Montreal this week. Iris sent this to you, so I hope you will find time to call and deliver her message. Wasn't it sweet of her?

We had a fine time the other night. It was about 11.30 o'clock when four of the girls came in and practically dragged me out of bed, exclaiming, "Come on, now, Marguerite, tell us a story." The girls here have found me out, and seem to enjoy the stories like you use to. Out went the lights and quickly they scrambled into my little bed. Then I began in my deep solemn voice:

"Once upon a time, many years ago, there was a great and noble prince who was wandering the world over in search of his lost princess. That he might more easily travel through foreign countries he disguised himself as a pauper. He had travelled through India, Africa and Italy, and in every land which formed a part of the then known world. On one very black, cloudy night, as he was wandering along a lonely path, a great pine forest suddenly sprang up before him. Terror-stricken, he fell back a pace; he tried to utter an exclamation, but words failed him, he was speechless, he was dumb. After several minutes he commenced to walk and went his weary way through this massive thick wood.

On and on and on he travelled for two days and two nights, but the poor prince was not aware that a single night had passed, for in that Forest of Darkness the sun never penetrates and there exists always that still

ORIGINAL GENUINE

Instantaneous Lunch Invigorating.

The Food-Drink for All Ages—Highly Nutritious and Convenient. Rich milk, with malted grain extract, in powder form—dissolves in water—more healthful than tea or coffee. Used in training athletes. The best diet for Infants, Growing Children, Invalids, and the Aged. It agrees with the weakest digestion. Ask for "HORLICK'S"—All Chemists, Hotels, Cafes and Stores. Don't travel without it. Also keep it at home. A lunch in a minute. In Lunch Tablet form, also, ready to eat. Convenient—nutritious.

HENRY BIRKS & SONS LIMITED - PHILLIPS SQUARE

shadowy sombreness of night. But soon he came to the edge of a small round, or rather star-shaped lake. Not a movement, not a stir, not a sound could be heard. In the very centre of the lake, the Prince could see the perfect reflection of the full moon. He turned his eyes upwards, and there, thousands of miles away, through this open space, the moon shone in the heavens and peered into the Lake of Loneliness.

As he gazed, and watched, and waited, he tried to speak, but still was speechless. Something in the lake seemed to move, a brilliant studded diamond star arose, then the most beautiful wavy golden locks could be seen floating on the surface. The light of the moon centered upon the face—it was a mild, sweet countenance, a soft gentle smile upon the lips, and a skin fairer and brighter than the sun shining behind a brilliant white cloud. To the music of a lyre which could be heard faintly in the distance she raised her arm and uttered these words, "At last, O Prince, thou hast found the entrance to the Land of Happiness. Happiness is not of your world. I am thy Princess; cast thyself into these waters, and dwell with

MANDOLIN PRACTICE.

The Mandolin Club will hold the usual practice at Peate's Studio this evening at 7.15 sharp.

Members are requested to bring their instruments and music, and to appear in full dress, with a sufficient length of McGill ribbon to go diagonally across the shirt front. Remember that this style of apparel will be the fashion on more than one occasion this winter. McGill ribbon may be obtained at Scott Bros.

Immediately after practice, the Club will proceed to Gordon's, where the photograph for the Annual will be taken.

All present and prospective members should make a special effort to

appear in the photograph, as it constitutes a record of the club membership for the present season to all readers of the Annual.

There are 9,392 students enrolled at the University of Pennsylvania, including students of the summer session, according to a recent registrar's report. Of these, 1,375 are registered in the Wharton School of Commerce.

A fraternity at the University of Oregon has acquired an apple orchard on property adjoining its home, and is reported to be piling up a considerable revenue from the sale of fruit not needed on the fraternal dinner table.

THE NEW HEAD OFFICE BUILDING OF THE SUN LIFE ASSURANCE COMPANY OF CANADA, DOMINION SQUARE, MONTREAL.

Incorporated in 1865, the Sun Life Assurance Company of Canada issued its first policy in 1871. In the intervening forty-five years of its active life history, it has established a record among Canadian life companies for both rapidity and solidity of growth. To-day in the wealth of its resources, in the magnitude of its operations and in the volume of its business, the Sun Life of Canada occupies a proud and commanding position as the premier life company of the Dominion of Canada.

CASUALTIES OF THE WEEK.

Killed in Action.
Thompson, 2nd Lieut. Geoffrey, Sci. '14, Royal Engineers.
Motyer, Lieut. Arthur J., Sci. '11, Royal Artillery.
Lumsden, Lieut. Walter, Arts '12, Canadian Artillery.
Godwin, Lieut. John L., past student, Canadian Artillery.

Died of Wounds.

Popham, Capt. John F. W., Sci. '10, Leicestershire Regiment.

Wounded.

Birks, Lieut. Gerald A., Arch. '19, 73rd Battalion.
Jones, Pte. Arthur R., Agri. '17, P. P. C. L. I.

The Week's Decorations.

Cosgrave, Major Lawrence V. M., past student, Canadian Artillery, Distinguished Service Order.

Capt. John F. W. Popham.

Prof. E. Brown, of the Faculty of Applied Science, has received word of the recent death from wounds of Captain John Francis Watson Popham, a graduate of the Faculty of Science of the class of '10, who was serving with one of the battalions of the Leicestershire Regiment in France as adjutant. Captain Popham died of his wounds at Lyons.

Capt. Popham was employed by the Canadian Pacific Railway after graduation, and when war broke out crossed to England and enlisted as a trooper in King Edward's Horse, the famous British cavalry unit composed largely of Colonials resident in the United Kingdom. In January, 1915, he took out his commission in the Leicestershire Regiment, and went to France in the following October, being steadily promoted for his good work in the field. He was wounded in the operations on the Somme.

Lieut. Arthur Motyer.

Lieut. Arthur John Motyer, Sci. '11, serving with a British artillery unit, was reported killed in action recently. Lieut. Motyer went overseas as a gunner in the 5th Battery of the First Canadian Brigade of Canadian artillery when the First Canadian Division was sent to England. After a year and a half at the front, he returned to England to qualify for his commission, and it was shortly after he went back to the firing line with the British unit that he was killed. Lieut. Motyer was a student and an

athlete of the highest standing. He was graduated from the University of Mount Allison in 1905, and entered McGill following the completion of his course at the Sackville institution. He was Rhodes Scholar from Bermuda, and was employed by the Canadian Westinghouse Company in Hamilton previous to enlistment. In his senior year at Mount Allison, says the Argosy, Lieut. Motyer captained the famous team of 1905.

Lieut. John L. Godwin.

Lieut. John Lockhart Godwin, past student, was killed in action some time ago, while fighting with the Canadian artillery in France. Lieut. Godwin, before enlisting, was a member of the clerical staff of the House of Commons at Ottawa, and had been Military Cross. He was a nephew of recommended for the receipt of the C. A. Magrath, Ottawa.

2nd Lieut. G. Thompson.

Sir William Peterson, Principal of the University, has received word that 2nd Lieut. Geoffrey Thompson, a graduate of the Faculty of Applied Science of the class of '14, was killed in action on the Somme front on September 3, through the explosion of a German shell while he was engaged in his work with a party of Royal Engineers. 2nd Lieut. Thompson was the younger son of A. C. Thompson, of Chetivole, Veybridge, England, general manager of the Prudential Assurance Company. He was born in London in 1889, and attended Berkhamstead school before he came to McGill to enter the class of Science '14. Following graduation, 2nd Lieut. Thompson was engaged as assistant engineer of the Burmah Mining Company, and when war broke out, secured a commission in the 2nd Sappers and Miners of the Indian army. He sailed to France with this unit, and at Marseilles was transferred to a tunnelling company of the Royal Engineers. After being stationed for almost a year in the vicinity of Albert, he was killed on September 3. An only brother, Lieut. Harold Thompson, of the Northamptonshire Regiment, was killed on May 9, 1915. 2nd Lieut. Thompson was well and favourably known, not only among members of the student body, but also among the members of the teaching staff of his Faculty.

Lieut. Walter Lumsden.

Walter Lumsden, of Hamilton, who took his Arts course at McGill, and was graduated in '12, is officially reported as killed in action. After he left McGill he entered Osgoode Hall in Toronto, and finished his law course there last spring. He enlisted at once and proceeded to France two months ago.

Major L. V. M. Cosgrave.

Another McGill man has been rewarded with companionship in the Distinguished Service Order for the gallantry displayed by him in the recent operations in which the Canadians have taken part on the Somme. He is Major Lawrence Victor Moore Cosgrave, past student with the class of Science '14, and a graduate of the Royal Military College at Kingston. Major Cosgrave has been awarded the D. S. O. for carrying out several reconnaissancees under very heavy fire, and exploring the enemy's wire in daylight, displaying the greatest courage and ability.

Major Cosgrave was an officer in the Mississauga Horse of Toronto, when he enlisted in the Artillery soon after war was declared. He has risen

THE WEEK IN REVIEW.

The question of amalgamation of the Theological Students' Society with the Students' Society of the University is still a much-discussed point in undergraduate circles. At the meeting of the Students' Council on Monday a delegation of Theological students was present, and the matter discussed in various lights, but without any decision being reached. There is some doubt as to the constitutional right of the Theological students to become part of the Students' Society.

Harry H. Pitts, Med. '18, was elected by acclamation Medical representative to the Students' Council on Friday. The other candidates who will stand at the elections of Faculty representatives to be held on December 11 are: Arts, K. P. Tsolainos and V. S. Green; Science, D. G. Dunbar and W. Schiedel; Law, T. P. Dillon and W. P. Hughes, M.A.

M.A.A.A. defeated McGill at water polo on Tuesday night by the score of 3-0.

The sale of tickets for the Union informal dance on December 15 is proceeding in a satisfactory manner. The dance is to be held in aid of the McGill Women's Union.

The Arts Juniors held a class dinner in the McGill Union on Wednesday evening.

Flight-Lieut. Neil McDiarmid, an undergraduate of Arts '17, was in the city on Wednesday, returning to his home in Victoria, B.C., after being honorably discharged from the Royal Naval Air Service. While doing patrol duty off the south coast of England he suffered a fall which placed him in a naval hospital for some months.

The Athletic Association on Thursday awarded M's for the members of the Track Club who had excelled the results of the meets at Toronto and Queen's last year.

C. L. Bath, a member of Science '17, has been promoted to the rank of captain and flight commander in the Royal Flying Corps, in recognition of his gallant service in this branch of the fighting forces.

Dr. Paul Villard, lecturer in the Department of Modern Languages, has been granted the honorary rank of major in the Canadian Army Medical Corps, in recognition of his services in connection with the examination of French reservists and disabled French soldiers in Canada. Dr. Villard has done a great deal in this sort of work.

Dr. L. A. Herdt addressed the Electrical Club on Friday on the "Artificial Production of Nitrates; an Example of German Preparedness."

en to the rank of Major, and has been adjutant to General E. W. R. Morrison, of the 6th Canadian Howitzer Brigade. In 1912 he entered the class of Science '14, after being graduated from R. M. C. He is a son of Lawrence Cosgrave, Toronto, and was born in that city on August 28, 1890. Last January he was a principal in a unique military wedding at Folkestone, England, when he was united to Miss Beryl Hunter-Jones, of Toronto. The wedding party left the church on a gun carriage.

Professor Enlists.

Dr. R. Ruggles Gates, Arts '06, who last year was professor of zoology in the University of California, came East with the intention of taking part in the important scientific expedition going to British Guiana in the spring, and has now turned aside to give his services to England. He is taking passage to enlist immediately in the British army. Professor Gates is known for his biological discoveries, and particularly for his writings on heredity and evolution. His book, "The Mutation Factor in Evolution," published last year, was an important contribution to biology, and was widely discussed in scientific circles. Prof. Gates has latterly been connected with the New York Botanical Gardens in Bronx Park. "McGill is doing her part splendidly in the war," he writes to McGill Daily, "but there is evidently still much more sacrifice to be made."

Graduates Overseas.

Lieut. Jeffrey B. Macphail, Arts '14, and a well known intercollegiate wrestler, is now attached to Headquarters of the Canadian Army Corps in France, after several months' service with the Engineers. He enlisted as a sapper in the First Canadian Division, and rose to his present rank through consistent good work. He writes that he has had dinner in France with his father, Capt. Andrew Macphail, Arts '88, Med. '91, now with No. 66 Canadian Field Ambulance.

Lieut. C. Edgar Babcock, Arts '12, threatens to become the boss recruit of Eastern Ontario if he continues his success in this direction. Lieut. Babcock, who has been at Harvard and at Osgoode Hall since leaving McGill, is now attached to the 24th Battalion at Renfrew, Ont., and has been meeting with singular success in enlisting men for his unit in the St. Lawrence river counties. Lieut. Babcock is an athlete of note.

Lieut. J. D. Armstrong, Sci. '12, with the Canadian Engineers in France, writes to McGill Daily to the effect that Lieut. G. M. Taylor, Sci. '14, has joined his field company, and two of the members of the company, Lieut. John Forbes, Sci. '08, and Lieut. Alex. Haultain, Sci. '10, have been invalided to England through wounds.

A. L. S. Mills, Law '14, who used to be a member of the McGill intercollegiate Tennis team when it won every match in sight, is now engaged in making it forty-love against the Germans with the 24th Battalion. He writes to McGill Daily that he has been advanced in rank to that of major, after a year's service with the Montreal unit of which he is a member. Major Mills is a son of the Bishop of Ontario.

Lieut. D. S. Cole, Sci. '14, late machine gun officer of the 5th Canadian Pioneer Battalion, has left for Ottawa to assume his duties on the Imperial Munitions staff.

Lieut. T. C. Craggan, Arts '15, has been transferred from the Second Canadian Pioneer Battalion to the Royal Flying Corps, according to London advices.

The marriage is announced at St. Marylebone Parish Church on November 28, of Richard Henry Mather, Sci. '13, son of George Mather, Ottawa, and Miss Grace Margaret Fairbanks Kohl, youngest daughter of Mrs. Kohl, Peel street, Montreal. (Continued on Page 4.)

STARR SKATES
MADE IN CANADA - USED ALL OVER THE WORLD

EVERY PAIR GUARANTEED

For the Ladies!

There is no more exhilarating pastime nor healthy exercise for ladies than skating. It develops grace and symmetry of motion to a marked degree. And can you imagine a more elegant and neater skate than either one of these two illustrated? The Regis is an exceptionally light-weight Hockey Skate. The Glacier is a specially designed rink skate with flanged blade. Welded and tempered by "Starr" special process with "Starr" quality of design and workmanship.

The Starr Company are the largest high grade ice skate manufacturers in the British Empire and have been making good skates for over 50 years. Owing to their special process of tempering "STARR" skates are supreme in strength and lightness, and hold their "edge" longer.

The Royal Military College of Canada.

THERE are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government Institution, designed primarily for the purpose of giving instruction in all branches of military science to Cadets and Officers of the Canadian Militia. In fact, it corresponds to Woolwich and Sandhurst.

The Commandant and Military Instructors are all officers on the active list of the Imperial army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

The College is organized on a strictly military basis. The cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and in addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures health and excellent physical condition.

Commissions in all branches of the Imperial service and Canadian Permanent Force are offered annually.

The diploma of graduation is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulations of the Law Society of Ontario, it obtains the same exemptions as a B.A. degree.

The length of the course is three years in three terms of 9½ months each.

The total cost of the course, including board, uniform, instructional material, and all extras is about \$800.

The annual competitive examination for admission to the college, takes place in May of each year, at the headquarters of the several military districts.

For full particulars regarding this examination and for any other information, application should be made to the Secretary of the Militia Council, Ottawa, Ont., or to the Commandant, Royal Military College, Kingston, Ont.

Your Aim

When you mistrust that you require glasses and finally decide to visit an Optician your aim is to get satisfaction; in other words, to get just what you want.

Our Aim

Is to give just what you need to your own satisfaction, not merely to sell you a pair of glasses. Let us prove to you that we can suit you exactly.

R. V. C. NOTES.

There will be a basketball practice in the M. A. A. gym. on Wednesday at 2.45 p.m., to try out girls for the College teams for the match with Macdonald College on Dec. 9th. This is the only practice that will take place in an outside gym, so it is very important that the following girls are asked to come to the practice: W. Wyatt, J. Klein, D. Hicks, G. Gardner, L. Fowler, R. Goodwin, E. Hay, J. Craig, F. Grindley, L. Macdonald, B. Abbott, J. McCullough, R. Salomon, G. Savage, J. Moody, R. Rogers, K. Milligan, H. Nichol.

The following are in reserve, and may be called on: F. Kilgour, E. Ross, R. Forde, H. Graham and R. Contant.

Those on duty to-day in the tea-room are: N. Morgan, L. Roston, R. Rogers, J. Reid, I. Robertson, E. Sangster, H. Willard, R. Salomon, I. Scott, B. Stamm, L. Swindlehurst, H. Nichol, A. Safford, K. Taylor, S. Wilson, D. Hicks, A. Seiden, S. Solomon, W. Weight, M. McLagan, O. Cairns.

Committee member in charge: M. Taylor.

Today at 5 p.m., the finals will be played off between the Seniors and Sophomores for the Inter-year basketball championship. It is requested (Continued on Page 2)

TO-DAY'S MENU AT THE UNION.

Soups—Vegetable Soup; Purée au Jackson.

Fish: Fried Ontario Trout, Tomato Sauce; Broiled White Fish, Butter Sauce.

Entrees: Sirloin of Beef, Saute, Green Peas; Broiled Venison Cutlet, Madeira Sauce; Baked Pork Sausages, Fried Onions; Braided Veal Chops, Spanish Sauce; Boiled New England Dinner; Cold Roast Lamb, Russian Salad.

Eggs to Order: Ham, Plain or Parsley Omelette; Fried or Scrambled Eggs.

Roasts: Prime Rib Roasts of Beef, au Jus; Leg of Veal, with a dressing; Leg of Pork, with Apple Sauce.

Vegetables: Boiled or Mashed Potatoes; Buttered Cabbage.

Desserts: Steamed Raisin Pudding, Caramel Sauce; Apple Sago.

MEETING OF DENTAL SOCIETY.
On Monday evening, Dec. 4, 1916, the McGill Dental Society will conduct its third regular meeting of the session at the New Medical Building.

As a result of the recent very successful reception held by that body, great interest is being shown in its development.

Features of the evening will be papers on Anæsthesia, by Dr. Douglas Derrick, and on Radiodontia by H. H. Pearson. The former paper will treat of the various anæsthetics, local and general, their history and application, while the latter will discuss the uses of the X-ray in the diagnosis and treatment of dental disorders, and will be illustrated by lantern slides. A discussion of these papers will follow.

Since these subjects should be of great interest to Dental students, a large attendance is expected.

MCGILL MEN IN BRITISH ARMY FALL AT FRONT.
(Continued from Page 3.)

The marriage of Miss Hilda McGillis, youngest daughter of Mr. and Mrs. A. D. McGillis, of Westmount, to Lieut. Michael T. Burke, Law '13, son of Mrs. G. E. Hall, was solemnized last week in St. Leo's Church, Montreal.

News has been received by Mrs. Beagley, 550 Wiseman Avenue, Outremont, that her son, Sergt. T. G. Beagley, Sci. '10, has won his commission in the field.

Major Gendron Back.

Wearing the two gold braids emblematic of having been twice on the casualty list on active service, Major J. Ferdinand E. Gendron, Sci. '15, late of the First Field Company, Canadian Pioneers Battalion, and now adrian Pioneer Battalion, and now lieutenant in the Royal Canadian Engineers, was a caller at the McGill Union last week. Major Gendron has been invalided home for the second time since the war began, and has been transferred to the Canadian permanent force, reverting to the rank of lieutenant. He will be engaged in instructional duty in Canada, and will be stationed at Quebec.

Major Gendron, a graduate of the Royal Military College of Canada, and a third year student in Applied Science at McGill, was one of the first to volunteer his services when the call was made for Canadians to enlist in August, 1914. He was attached to the First Field Company of the Canadian Engineers, and went to France with this unit in February, 1915. In the following June he was wounded at Festubert, and was invalided back to Canada. While here he rejoined the colours as a company commander in the 2nd Canadian Pioneers, and again went to France. In August last he was promoted to the rank of major, and a short time afterwards was injured at Thévalon on the Somme front through the explosion of a shell nearby, which put him in the hospital for five weeks with concussion.

Major Gendron spoke hopefully to McGill Daily of the operations on the Somme, but explained that he did not believe that it was the aim of the Allies to smash a way through the German line, but rather to wear them down and cause as severe losses as possible without allowing them to shorten their line or bring up reinforcements. The Allies could make a general advance, but the cost in men would be too great.

The returned officer spoke of many McGill men whom he had met at college and again seen at the front. Among these were Major W. B. McTaggart, Sci. '15, Capt. "Pont" Armour, Lieut. J. K. M. Green, now on staff duty in England; Lieut. J. B. Macphail; Lieut. M. O'Halloran; Lieut. "Chuck" Waterous, Lieut. V. E. Ducloux, Lieut. Dennis Baker, Capt. Otto Demuth, Lieut. J. D. McCall, Sapper Eddie Lyons, Corp. Ewen MacEwen, Lieut. Eberts and George Laing. He was with Lieut. Clifton M. Horsey the night before he was killed.

Major Gendron played outside wing on the champion senior football team of 1913.

PROVINCE OF QUEBEC

DEPARTMENT OF COLONIZATION, MINES AND FISHERIES.

The chief minerals of the Province of Quebec are Asbestos, Chromite, Copper, Iron, Gold, Molybdenite, Phosphate, Mica, Graphite, Ornamental and Building Stone, Clays, Etc.

The Mining Law gives absolute security of Title and is very favourable to the Prospector.

MINERS' CERTIFICATES.

First of all, obtain a miner's certificate, from the Department in Quebec or from the nearest agent. The price of this certificate is \$10.00, and it is valid until the first of January following. This certificate gives the right to prospect on public lands and on private lands, on which the mineral rights belong to the Crown.

The holder of the certificate may stake mining claims to the extent of 200 acres.

WORKING CONDITIONS.

During the first six months following the staking of the claim, work on it must be performed to the extent of at least twenty-five days of eight hours.

SIX MONTHS AFTER STAKING.

At the expiration of six months from the date of the staking, the prospector, to retain his rights, must take out a mining license.

MINING LICENSE.

The mining license may cover 40 to 200 acres in unsurveyed territory. The price of this license is Fifty Cents an acre per year, and a fee of \$10.00 on issue. It is valid for one year, and is renewable on the same terms, on producing an affidavit that during the year work has been performed to the extent of at least twenty-five days' labor on each forty acres.

MINING CONCESSION.

Notwithstanding the above, a mining concession may be acquired at any time at the rate of \$5.00 an acre for SUPERIOR METALS, and \$3.00 an acre for INFERIOR MINERALS.

The attention of prospectors is specially called to the territory in the North-Western part of the Province of Quebec, north of the height of land, where important mineralized belts are known to exist.

PROVINCIAL LABORATORY.

Special arrangements have been made with the ROYAL TECHNICAL SCHOOL at LAVAL UNIVERSITY, 228 ST. DENIS STREET, MONTREAL, for the analysis of minerals at very reduced rates for the benefit of miners and prospectors in the Province of Quebec. The well equipped laboratories of this institution, and its trained chemists ensure results of undoubted integrity and reliability.

The Bureau of Mines at Quebec will give all the information desired in connection with the mines and mineral resources of the Province, on application addressed to

HONORE MERCIER,

Minister of Colonization, Mines and Fisheries, Quebec.
